

100

Celebrating the 100th Day of School

If all goes well, our 100th Day of School will be Wednesday, February 23 and we will celebrate this event that week. In kindergarten and grade 1, the children were asked to collect 100 items. In grade 2, they are asked to use their 100 items to make something. I am asking that the children not bring in their sticker collection or Pokémon type cards. I want them to use 100 things to create something. Perhaps they would like to use 100 marshmallows or 100 Popsicle sticks to build something or make a poster. In past years, children have even collected 100 signatures to make an autograph book. I want the children to have fun and to use their creative ability.

Each project must be able to fit on the student's desk. Projects are due by Monday, February 21.
